

PHANTOM CLASS® OPEN FRAME SWING OUT RACKS

90 degrees and a cutting edge design allows for easy access to install, maintain and improve your rack technology

ONE OF A KIND DESIGN

The Phantom Class® Open Frame Swing-Out Rack is truly in a class of its own. The unrivaled quality allows you to install rackmount equipment up off the floor and easily supports up to 150 lbs. with a 20" usable depth. The 90 degree swing-out provides installers the access to install, manage patch panels, routers, hubs, switches, cabling and other network devices.

12U SWING OUT
Item #1915-3-800-12

18U SWING OUT
Item #:1915-3-800-18

OPEN RACK DESIGN

90 SWING OUT DEGREE ANGLE

FEATURES

- One set of 10-32 tapped rails
- 150 lb. weight capacity
- 20" usable mounting depth
- 19" EIA compliant
- Ships knocked down
- Limited Lifetime Warranty
- Made in the USA

SIMPLE TO INSTALL

Knockdown design reduces shipping charges and backless construction makes assembly a snap. With just a few steps, the rack is easy to assemble with the 16" on center mounting holes that can mount directly to your wall studs.
