

TRAINING TABLE GANGING BRACKET KIT

The Training Table Ganging Bracket Kit allows you to secure multiple training tables together, reducing accidental movement and displacement. Securing the front and rear of each table top ensures that both training tables remain level. Pre-drilled surface holes encourage correct placement and easy installation.

- Includes two ganging plates
- Installation hardware included
- Black powder coated steel
- Made in the USA
- Limited Lifetime Warranty

FEATURES

Easy Installation - The Training Table Ganging Bracket Kit includes pre-drilled surface holes to not only encourage the correct placement of the brackets, but it makes installing this kit a breeze.

Rounded Corners - All corners on both plates are rounded to avoid snagging or damaging cables, hands, and/or other devices.
