- Constructed from cold rolled steel
- Limited Lifetime Warranty
- Made in the USA

PLANNING AHEAD

The Kendall Howard Universal Wire Minder makes organizing and protecting cables easy. Network cables that are not managed properly will decrease productivity, increase down time, and make it difficult to trace connectivity issues. Rewiring a network or replacing cabling infrastructure can cost tens of thousands of dollars - so if you do it, do it right the first time. What if you don't have a rack? No worries. The Universal Wire Minder mounts along walls or under desks, making it the ideal solution to all of your cable organization needs.

MULTIPLE USES

The unique design allows the Universal Wire Minder to be installed onto both cage nut and tapped rails within wall mount cabinets, wall mount racks, telco racks, and even full size server cabinets.
